- Android Studio
- VS Code
- Atom IDE
- IntelliJ IDEA

Worth to mention

- Even if I don't understand exactly lots of situations in the world of Software Development, most of the time I'll make things happen, no matter the task/requirement.

EDUCATION

September 2019 - September 2020

- **Link Academy-Android Mobile Development Program**

This program prepared me to create various applications for all versions of Android operating systems, including the latest version.

I'm ready to create everything from simple applications to complex applications that include working with data. I am able to do all this with the help of the famous Java programming language and with the help of the Android Studio development environment.

September 2018 - June 2021

- **Bachelor in Marketing, Artifex University, Bucharest**

October 2021 - June 2023

- **Master Program at Universitatea Politehnica Bucuresti**

LANGUAGES

- **English: Good**
- **German: Elementary**
- **Romanian: Native**
